6-12 Month Goals

- We have improved our APGNN membership experience by better utilizing support from the NASPGHAN office
- Continued activity on our APGNN Listserv
- APGNN members will continue to serve on NASPGHAN committees
- Increased engagement in NASPGHAN Advocacy efforts and plans to continue to make this a priority as much as possible
1-3 Year Goals

• Moving forward all material produced through NASPGHAN will be submitted for nursing education hours along with CME and RD hours.
  – APGNN will need to be part of the process at the time the project is initiated in order for the application

• Ongoing involvement with NASPGHAN/foundation
  – Constipation Care package
  – Doc4me

• Professional development opportunities
  – Mentor program
Overall Outcomes

We have increased our rate of new membership applications significantly since the annual meeting through the following initiatives:

- Buy 3 Get One Free-intended for NASPghan members and institutions that support their nurse’s membership
- APGNN Membership Booth at NASPghan-space complimentary from NASPghan
- Handbook of Pediatric Gastroenterology 2nd ed. Available for purchase while supplies last.
Overall Outcomes

• Our organization successfully negotiated a membership agreement between APGNN and NAPNAP (National Association of Pediatric Nurse Practitioners) in 2016.
  – The agreement allows members to join both organizations and receive a 20% discount as a result of dual membership.
  – APGNN currently works closely with NAPNAP as the provider for our Annual Meeting CEU’s.
  – Plans for online archived sessions from conference
Overall Outcomes

- APGNN does not have the member numbers or resources to pursue formal certification at present
  - Numerous other options to improve engagement and advancement do exist and will be explored in the near future
  - Badging, competency creation, learning bundles
Challenges

• Our infrastructure and lack of formal structured administrative support has made budgeting difficult.
• Technology challenges in relation to website support and features
• All volunteer board, it is often difficult to move projects and initiatives forward due to limited resources both financial and human.
• Are you getting emails from us regularly?
• If not make sure to check and modify your email address on your membership profile if needed.
• Personal email may be better than institutional ones due to firewall problems!

Maureen Egan, APN
Program Committee Chair
Clinical Practice Committee
The goal of the committee is to provide learning opportunities aimed at improving the clinical practice of the APGNN members.

• 2016 Projects:
  • Liver learning e-learning modules on Biliary Atresia and Basic Liver Disease for CEU
  • Prior learning modules on GI disease for CEU including Crohn’s disease, Ulcerative Colitis, constipation and reflux.
  • 9 Phone triages have been created to help assess patients
  • Clinical Vignettes (reporting of interesting cases that have a lesson to be learned) at the conference and in our newsletter

Donna Garner, MSN, CPNP
We are excited to announce that the APGNN Annual Meeting this year will be videotaped and through partnership with NAPNAP will be offered online in module format for CEU credit.

***We are looking for creative minds to join the Clinical Practice Committee to help us continue to produce high quality work for the education of GI providers***

- Over the next few years we would like to put together a curriculum for new to GI nurses and Advanced Practice Providers that would allow them to go from novice to expert in a variety of GI/Liver Diagnosis.
- First curriculum underway: constipation
  - involves a variety of teaching modalities.
